Encounter and Exchange

Encounter and Exchange is an examination of some of Georgia's historical meetings between various individuals and groups of people, including women, and the exchange of ideas that followed. Sometimes these encounters were forced and bloody, others were cooperative and peaceful. Regardless of the circumstances, Georgia's historical encounters gave rise to the rich cultural and ethnic diversity of the present-day state.

The exhibit concentrates on three themes - colonial settlement of North America, the first two hundred years of slavery in North America, and human interaction with the environment - and the aim of the exhibit is to apply these themes to Georgia's history. Teachers can [download a PDF teacher guide](#) with tips on using the materials in the classroom.
